GUIDELINES FOR ADD-ON COURSE

The rapid changes in the Science & Technology fields requires additional set of knowledge and skills beyond prescribed curriculum to meet the industrial requirement. This can also enhance the lateral thinking and the spirit of innovation and start up to cope up with the schemes launched by Government. To meet the rapid technological development, several times, students need to be imparted with new skills and professionalism in order to achieve the Programme Specific Objectives. The university curriculum clearly defines the program specific courses. However, students may need specialized aptitude of their own interest to become industry ready. In view of this, TSWRDCW Nirmal decided to offer Add-On courses in the fields of Physical, Life Sciences, Commerce & Computer Technology ranging from foundation to more specialized areas. These courses are conducted by experts for academia and industries which help students to stand apart from the rest in the job market by adding further value to their resume.

1. *Objectives*

The main objectives of the Add-On Course are:

☐ To enhance the knowledge and skills in more specialized areas of Sciences and Technology beyond Curriculum.

☐ To bridge the skill gaps and make students industry ready.

- To provide an opportunity to students to seek the knowledge and the more job opportunities in the specialized area of interest.

2. *Course Designing*

The Institute has designed variety of Add-On courses in discussion with the Heads and Faculty members after taking into consideration the current advancements in relevant fields and industrial demands. The detail of Add-On courses and their content is shown in **Annexure I.** The Registration form is shown **in Annexure II**

3. *Guidelines for conducting Add-On courses*

Add-On Course is over and above the prescribed curriculum. The students should opt and choose the Add-On courses of their choice to gain additional knowledge in the area of his/her interest from the pool of the Add- On courses being offered by the Institute. The student may choose not to opt for any Add-On course as these courses are not mandatory to qualify or award of degree. **Therefore, registration for Add-On course is not mandatory.** After successful completion and evaluation, the certificate will be awarded to student by the Institute. It is a teacher assisted learning course open to all students. The following are the guidelines for the conduct of the Add-On course.

- o Students studying in second semester to sixth semester are eligible for registration of Add-On course one per semester.

- o Classes for an Add-On Course are conducted during the **RESERVED** Time Slot in a week or beyond the regular class hours.

- o An Add-On courses may be also conducted during weekends/ vacation period.

Course Contents:

Module 1: Orientation, Basics and Lab Instruction   10 hrs

The introduction to the course IoT. The devices and technologies being are made up of systems, protocols, and architectures in order to understand IoT, Key pieces of Internet and how the internet works. IoT Components and Protocols. Applications of IoT.

Module 2: Devices: IoT Circuits   10 hrs

Foundational notions of electricity and IoT circuits. Electronic components, Selection of the devices needed to set up IoT projects. Construction of Circuitry among the devices.

Module 3: IoT Devices Architectur   *10 hrs*

Introducing that how IoT systems are architected. Higher-level components used to build IoT systems such as ICs and breakout modules computational platforms used in constructing real IoT devices

Module 4: IoT Software   15 hrs

Design of IoT platforms, Introduction to Arduino Programming, Introduction to Blynk. Simulation of Simple Projects based on NodeMCU.

Course Outcome:

- ➤ *Able to understand the application areas of IOT*
- ➤ *Able to realize the revolution of Internet in Mobile Devices & Cloud*
- ➤ *Able to understand building blocks of Internet of Things and characteristics.*

Digital Literacy 2020-2021

Due to CORONA PANDEMIC we unable to conduct Digital Literacy Classes as they do not have systems with them.

Python Programming

One-week online workshop in Python Programming held from 1st June 2020 to 6th June 2020

Organized by Department of Computer Science.

Python is one of the top programming languages in the world, widely used in fields such as AI, machine learning, data science, and web development.

The simple and English-like syntax of Python makes it a go-to language for beginners who want to get into coding quickly.

Because Python is used in multiple fields, there is a high demand for Python developers, with competitive base salaries.

Resource Persons explained about
