STUDENT ACTIVITIES

DEPARTMENT OF ECONOMICS

## STUDENT SEMINAR

Department of Economics conducted a Student Seminar on the Topic “ **Consumer Behaviour**” on 21<sup>th</sup> August 2023, under the guidance of R.Vanaja , H.O.D, Dept. Economics . The Seminar was given by O.Manisha, All the students of BA- III have attended the Seminar and raised some doubts and questions on the topic and got clarified. Seminars encourage active participation from Students rather than passive listening. They provide opportunities for Students to engage discussions ask questions and present their ideas

Student Activity Register

**CLASS SEMINAR**

Date: 20.03.2023

Period: III

Class: MPC III

Paper: Linear Algebra

Name of the Topic: Vector Spaces

Name of the Student: D. Abhinaya

INTERACTION: She explained about definition of Vectors, Scalars and Vector Spaces. She gave few examples on Vector Spaces and Subspaces.

Questions asked by the Students:

1. How to find inverse for and element in two binary operations without calculations?
2. How to find the No. Of elements in Vector Space

Observations/Suggestions by the Presenters:

- Need more practice to overcome stage fear,
- Concentrate on basic concepts,
- Need to maintain eye contact with students.

2022-23 STUDENT ACTIVITIES

STUDENT SEMINAR

Department of Botany conducted a Student Seminar on the Topic “Xylem” on 25<sup>th</sup> August 2023, under the guidance of Dr. K Sumalatha, H.O.D, Dept. Botany and D. Sangeetha Lecturer in Botany. The Seminar was given by M.Pravalya BZC III. All the students of BSc BZC III have attended the Seminar and raised some doubts and questions on the topic and got clarified. Seminars encourage active participation from Students rather than passive listening. They provide opportunities for Students to engage discussions ask questions and present their ideas.

The xylem, vessels and tracheids of the roots, stems and leaves are interconnected to form a continuous system of water-conducting channels reaching all parts of the plants. The system transports water and soluble mineral nutrients from the roots throughout the plant. It is also used to replace water lost during [transpiration](#) and photosynthesis. Xylem [sap](#) consists mainly of water and inorganic ions, although it can also contain a number of organic chemicals as well. The transport is passive, not powered by energy spent by the [tracheary](#) elements

**3. Stacks and queues**

Definition - A stack is an ordered collection of homogeneous data elements, where the insertion and deletion takes place at one end, known as TOP.

- The stack is also called LAST IN FIRST OUT(LIFO)
- It means: the element which is inserted last must be deleted first
- Example
  1. No of plates in cafeteria
  2. stack of coins

*(Note: The slide also includes images of a stack of plates and a stack of coins.)*

HOD, Computer Science

PRINCIPAL

PRINCIPAL  
TELANGANA SOCIAL WELFARE  
RESIDENTIAL DEGREE COLLEGE  
FOR WOMEN: NIRMAL.

Date: 22/02/23.

Class: B.Sc (MPC) - III

Semester: VI - (Solid state physics) Electronics.

Topic: Properties of Semiconductors.

Name of the student: B. Bhavani, 636-21-4003.

Brief description of the topic:

Semiconductors in their natural state are poor conductors because a current requires the flow of electrons, and semiconductors have their valence bands filled, preventing the entire flow of new electrons. Several developed techniques allow semiconducting materials to behave like conducting materials, such as doping or gating.

These modifications have two outcomes: n-type and p-type...

Questions posed:

How to differentiate p-type and n-type diodes?

Remarks:

→ Presentation is good.

→ Needs well preparation on the topic.

## STUDENT SEMINAR

16-07-2022

Date: 16/07/2022.

Class: B-Sc(MPC) - I.

Semester: I - Mathematical physics.

Name of the student: N. Sandhya.

Brief description of the topic: Stokes theorem -

"The line integral of a vector field over a loop is equal to the surface integral of its curl over the enclosed surface."

$$\oint_C \mathbf{F} \cdot d\mathbf{r} = \iint_S \text{curl } \mathbf{F} \cdot d\mathbf{s}.$$

Questions posted:

What is the line integration, surface and volume integration?

Remarks:

→ Good presentation.

→ Need to improve the knowledge on the content.

## Seminar

Date: 05/02/2020.

Class: Bsc(mpc)-III

Semester: VI - solid state physics.

Topic: Applications of solid state physics.

Name of the student: M: Archana. 636-18-4026

Brief description of the topic:

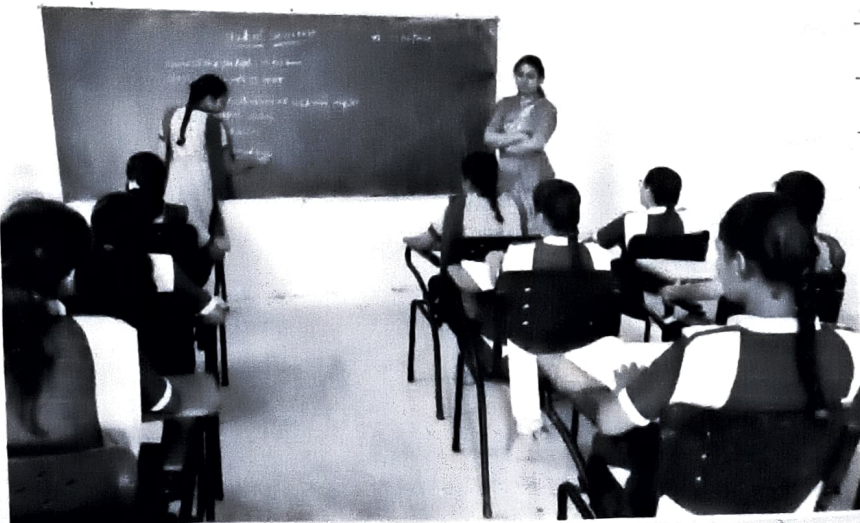

- This subject is applied rigorously all around us. The most important among them are:
- Electronic devices such as mobiles & computers.
  - Optical devices such as lasers & fiber optics.
  - magnet based devices such as magnetic resonance imaging (MRI) & vibrating devices.
  - Silicon-based logic & memory bte.

Questions posed:

- How it is related to fibre optics field.

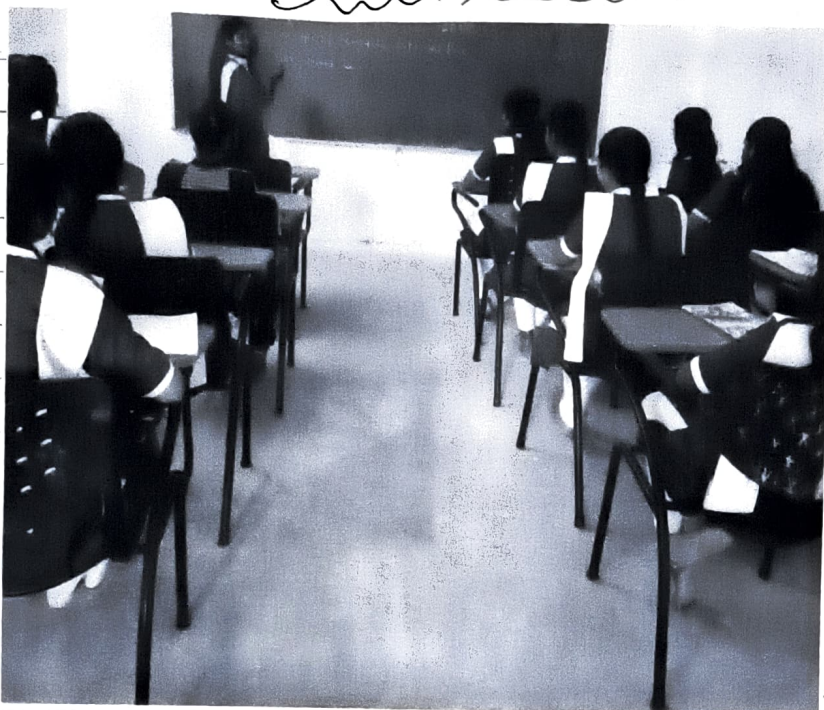

Remarks:

- presentation is good.
- Needs improvement in content.

*Handwritten signature*

## Student Seminar

Date: 12/09/2019.

Class: BSc (MPC)-III

Semester: V. - Electromagnetism.

Name of the student: D. Ramya.

Topic: Concept of magnetic field & flux.  
Biot-Savart's law.

Description:  $F = q(v \times B)$

Flux  $d\phi_B = B \cdot ds$ .

$\phi_B = \int B \cdot ds = B \cdot S$ .

Biot-law:  $dB = \frac{\mu_0}{4\pi} \frac{idl \sin\theta}{r^2}$

Units of B = Weber.

Questions posed: 1) What is the direction of magnetic field when the current direction is up & down & upward & downward.

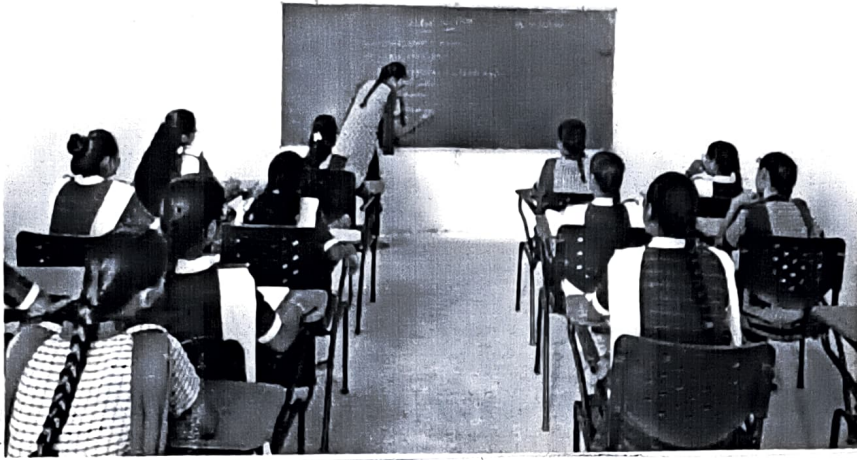

Remarks / suggestions:

→ Needs improvement in learning concepts.

→ Hand writing should be visible.

D Ramya

## Student Seminar

Date: 08/04/2019

Class: BSc (MPC)

Semester: VI

Name of the student: D. Komala

Topic: Classification of solids and 3-dimensional crystal structures.

Brief description of the topic:

There are 7 types of crystal structures named

1. Cubic
2. Tetragonal
3. Orthorhombic
4. Monoclinic
5. Triclinic
6. Rhombohedral
7. Hexagonal cubic systems.

→ Bravais lattices, Examples, Symmetry axes, Symmetry elements are taught.

Questions posed:

- How can we differentiate amorphous from crystal.
- Give some examples of hexagonal crystal.

Remarks/suggestions:

→ Voice is not audible, advised to speak a bit louder.

Komala
